Enjoy HamaLand's retreat at Banana Island Resort

TRIBUNE NEWS NETWORK
DOHA

BANANA Island Resort Doha by Anantara, the luxury brand's first resort in Qatar, developed by Al Rayyan Hospitality, offers a paradise island setting for guests to enjoy, both above and below the water activities with extensive facilities for everyone from honeymooners to families, with unlimited opportunities for relaxation and adventure.

Because of its prime location in the heart of Doha's turquoise sea, Banana Island Resort Doha by Anantara is a family resort that offers access to the sites, attractions and activities to further enhance guests' spectacular vacation in Qatar. Besides a vast array of luxurious experiences to be had on property, guests and families can also enjoy the pleasures of the

The HamaLand Concept SAS is a stunning concept of private floating lounge.

surrounding landscape with some sporting action.

For all this, Banana Island Resort Doha by Anantara has in-

troduced for the first time in the Middle East a fresh floating world and lifestyle on the Arabian Gulf. The HamaLand Concept SAS is a

stunning concept of private floating lounge.

This innovation – at the point where land meets sea and sea

meets sky – will offer HamaLanders a dedicated space on water (more than 113sqm), a cross between a personal island and a private beach where families, friends and loved ones can spend quality time together.

HamaLand has been launched on the Mediterranean Sea at La Presqu'île de Giens then showcased in the Principality of Monaco where it appealed at first sight to the first "HamaLanders" who had a chance to discover and enjoy the unique HamaLand experience.

The concept combines emotional luxury and simplicity. Modular and multi-purpose, HamaLand is just as suited to sport and leisure as it is for relaxation. An opportunity for "HamaLanders" to become at one with the elements and experience the delights of their own personal floating world, HamaLand creates a transcendent sensation of

well-being and harmony.

The ultimate place to enjoy time and company in absolute serenity, HamaLand is destined to become a must-have for outdoor lovers and water sports enthusiasts alike. It also provides a safe haven for individuals seeking space, freedom and privacy in outstanding surroundings or simply an alternative lifestyle for others.

Banana Island Doha invites guests – 12 years and above – to this special activity occurring on a daily basis from dawn to sunset, and enjoy various amenities at the deck.

Banana Island Resort Doha by Anantara feels a world away from bustling Doha but is only a 25-minute journey by luxury ferry from Al Sheykh Terminal located in the city's downtown area or a 10-minute helicopter ride directly from the airport with bird's eye views of the spectacular coastline.
